

Null Resource

Attributes

```
triggers {  
  always = timestamp()  
}
```

Changes to the "triggers" attribute will cause lifecycle events to be triggered

Function Hooks

first invoke

first invoke

```
Create() -> {  
  doNothing()  
}
```

```
Read() -> {  
  doNothing()  
}
```

```
Update() -> {  
  doNothing()  
}
```

```
Delete() -> {  
  doNothing()  
}
```

then do

then do

Provisioners

```
provisioner "local-exec" {  
  command = "echo hello"  
}
```

```
provisioner "local-exec" {  
  when = "destroy"  
  command = "echo goodbye!"  
}
```
